

Topic: Resume Builder

Author: Coralys M. Cortés Soto

Date: January 19, 2021

Problem Background:
Many students during his early years of college does not know how to build an appropriate resume to apply to an internship.

- Countermeasure:*
- 1. Design project structure and requirements*
 - 2. Build resume base templates, at least two.*
 - 3. Development application phase*
 - 4. Testing*

Target:
Create an application capable to generate and organize student’s resume according to the information provided by the student and position they are applying. This is expected to be achieved at the beginning of May.

Causes:
Before entering college, students are no taught how to create a resume. A potential cause is the lack of preparation of educational systems in teaching how to prepare student for their career life.

Check/Evaluate			
Countermeasure(s)	Actual Date	Due Date	Evaluation
Design project structure and requirements	27 - January	29 - January	Good
Build resume base templates, at least two.	2 – February	2 - February	Good
Development application phase	28 – April	23 – April	Not good
Testing	2 – May	30 – April	Not Good

Act/Standardize
In order to ensure the application continue working will require rigorous maintenance and updates to new versions. This is with a view of further wider outreach outside of the university community.
